Weather report on APRIL 28, 2004 at 06:00

WARNING:

A LITTLE RISK OF ISOLATED THUNDERY RAINSHOWERS IN THE SOUTH ADRIATIC.

SINOPTIC SITUATION:

A broad trough is slowly approaching the Adriatic from the west.

Forecast for 24 hours

WEATHER CONDITIONS AT 05:00 a.m.: Mostly clear. Calm or light variable wind. Sea smooth. Visibility 10-20 km.

THE ADRIATIC 24 HOURS FORECAST:

8 am or variable winds 4-8 knots. SE wind is expected in the afternoon and at night, gradually increasing to 5-5 in the open sea up to 20 knots. Sea 1-2, during the night 2-3. Visibility 10-20 km. Fine or fair, but in the South Adriatic variably cloudy, still with a little risk of brief isolated rainshowers and thunder. No change is expected in air temperatures.

LOOK UNTIL MAY 02, 2004:

Apr. 29 - SE wind increasing to moderate and strong. Sea increasing to 3-4. Fine or fair, but in the North Adriatic fair or mainly cloudy. No significant change is expected in air temperatures. Apr. 30 - moderate to strong SE wind is expected to diminish late in the day. Sea 3-4. Gradual heavier cloud increase with rain in the North Adriatic. Light scattered rain is expected in the rest of the Adriatic late in the day. Daily air temperatures will drop a little. May 01 - light to moderate SE wind. Sea 2-3. Fair or mainly cloudy with rain in places, but clearing is expected late in the day. May 02 - light SE and SW wind. Sea 1-2. Mostly sunny with brief isolated rainshowers.
